

LET'S CLEAR SPACE FOR AVATAR: THE WAY OF WATER

CHRISTIE®

November 7, 2022

December is just around the corner and before you know it, Avatar: The Way of Water will be playing on your screens and mesmerizing audiences! Let's get your theatres ready for release day and keep your equipment operating flawlessly.

Manage your content on the LMS / TMS¹ and screen servers

Remove all old and unused content to keep your disk space utilization low. If your disk space reaches 80% or higher, there is a risk of playback issues such as audio/video buffering, as well as reduced space for new content ingestion.

Please note, if you successfully deleted all content from your server and you still see high disk space use, you may have orphaned assets. To solve this, please perform a disk clean-up while your system is idle, not when your content is loading.
